

International Trauma Life Support - High Threat Providers Course (ITLS - High Threat)

Course Aim:

The ITLS High Threat Providers Course is a practical trauma management course designed for prehospital care providers operating within conflict zones or other high-threat environment.

The course has been designed to meet the military Committee on Tactical Combat Casualty Care (CoTCCC) and civilian Committee on Tactical Emergency Casualty Care (C-TECC) provider guidelines.

The course includes interactive learning methods such as scenario-based training and skill training.

The course provides the training for operations and advanced life-saving care in the high-threat environment.

Intended Audience:

1. Government Law Enforcement
2. Government or Hospital Authority departments involved in emergency care

*Group Booking Only & applicants must hold a valid ITLS certificate
